BRADIX CRM Subject Line System

Nothing Slips Protocol — Gmail + Notion + n8n Integration

THE FORMAT

Every email Andrew sends or receives gets tagged with this structure:

```
[PRIORITY][CATEGORY][ENTITY] Description — Deadline/Action
```

Priority Levels:

- `[CRITICAL]` — deadline within 48 hours, legal/financial consequence if missed
- `[URGENT]` — deadline within 1 week
- `[HIGH]` — deadline within 1 month
- `[MEDIUM]` — important but flexible timeline
- `[LOW]` — background/informational
- `[DONE]` — completed, archive

Categories:

- `[LEGAL]` — court, tribunal, complaints, appeals
- `[FINANCIAL]` — money, fines, benefits, super, insurance
- `[CARE]` — Cheryl's care, medical, services
- `[SYSTEM]` — BRADIX build, tech, APIs
- `[PERSONAL]` — relationships, boundaries, wellbeing

- `[ADMIN]` — forms, registrations, renewals

Entities (key players):

- `[AFCA]` — Australian Financial Complaints Authority
- `[SPER]` — State Penalties Enforcement Registry
- `[TMR]` — Transport and Main Roads
- `[PTQ]` — Public Trustee Queensland
- `[QCAT]` — Queensland Civil and Administrative Tribunal
- `[BLUECARE]` — BlueCare services
- `[QSUPER]` — QSuper class action
- `[HOME-INSTEAD]` — Home Instead Brisbane West
- `[BHC]` — Brisbane Housing Company
- `[HOLLARD]` — Hollard Insurance
- `[SHINE]` — Shine Lawyers
- `[LEGAL-AID]` — Legal Aid Queensland
- `[DAVID]` — David, EV Charging Solutions
- `[SAM]` — Sam (personal)
- `[MILLS]` — Andrew Mills
- `[CHERYL]` — Cheryl’s care matters

GMAIL FILTER RULES

Set these up in Gmail Settings → Filters and Blocked Addresses:

Filter 1 — CRITICAL auto-star:

- Has the words: `[CRITICAL]`
- Apply label: `BRADIX/CRITICAL`
- Star it: Yes
- Mark as important: Yes
- Never send to spam: Yes

Filter 2 — URGENT label:

- Has the words: `[URGENT]`
- Apply label: `BRADIX/URGENT`
- Mark as important: Yes

Filter 3 — Legal matters:

- Has the words: `[LEGAL]`
- Apply label: `BRADIX/LEGAL`

Filter 4 — Care matters:

- Has the words: `[CARE]`
- Apply label: `BRADIX/CARE`

Filter 5 — Incoming institutional emails (auto-tag):

- From: `@sper.qld.gov.au OR @tmr.qld.gov.au OR @pt.qld.gov.au OR @qcat.qld.gov.au`
- Apply label: `BRADIX/INSTITUTIONS`
- Mark as important: Yes
- Never send to spam: Yes

NOTION DATABASE SCHEMA

Create a database called “BRADIX Case Tracker” with these fields:

Field	Type	Options
Title	Text	Subject line format above
Priority	Select	CRITICAL / URGENT / HIGH / MEDIUM / LOW / DONE
Category	Select	LEGAL / FINANCIAL / CARE / SYSTEM / PERSONAL / ADMIN
Entity	Select	All entities listed above
Deadline	Date	Hard deadline
Status	Select	Not Started / In Progress / Waiting / Done / Blocked
Action Required	Text	What Andrew needs to do
Script	Text	What to say/write
Evidence	Text	Links to documents/emails
Created	Date	Auto
Last Updated	Date	Auto

Views to create:

1. "TODAY" — filter: Deadline = today, sort by Priority
2. "THIS WEEK" — filter: Deadline = this week
3. "CRITICAL" — filter: Priority = CRITICAL
4. "DONE" — filter: Status = Done (archive view)

---

n8n WORKFLOW — NOTHING SLIPS PROTOCOL

Workflow 1 — Incoming Email Alert:

- Trigger: Gmail new email
- Condition: Email from institutional domain OR contains [CRITICAL] or [URGENT]
- Action: Create Notion database entry + Send push notification to phone

Workflow 2 — Deadline Reminder:

- Trigger: Daily at 8am
- Action: Query Notion for items with Deadline = today or tomorrow
- Action: Send summary to Andrew's phone via push notification
- Format: "TODAY: [list of critical items]"

Workflow 3 — Overdue Alert:

- Trigger: Daily at 9am
- Action: Query Notion for items where Deadline < today AND Status != Done
- Action: Send urgent alert: "OVERDUE: [item] — Action required NOW"

Workflow 4 — Weekly Review:

- Trigger: Every Sunday at 9am
- Action: Query all BRADIX/URGENT and BRADIX/HIGH items
- Action: Generate weekly summary and send to Andrew

THE NOTHING SLIPS RULE

1. Every incoming email from an institution gets tagged within 24 hours
2. Every action item gets a deadline in Notion
3. No deadline passes without a completed action or a documented reason for delay
4. If Andrew can't act on something, it gets tagged [BLOCKED] with a note explaining why
5. Weekly Sunday review: everything in CRITICAL or URGENT gets checked
6. Monthly review: everything in HIGH gets checked

The test: If Andrew is hospitalised tomorrow, can someone else pick up the BRADIX Notion database and know exactly what needs to happen? If yes — the system is working.
